

4 June 1969

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Weekly Report of the Office of Training

1. Colonel White Captivates AFSC Student Body

Reports from Agency students at the Armed Forces Staff College describe Colonel White's presentation on 26 May as outstanding, particularly the question-answer period in which he responded to all questions in a candid manner, which highly impressed the student body. Students also noted that Colonel White delivered his entire lecture without reference to notes -- a happy contrast to many other lectures by military and government officials. Each Agency student reported many favorable comments from other AFSC students on the presentation.

2. Brookings Visitors Praise Agency Visit

A memorandum from DCS's [REDACTED] Office Chief avers that two of his contacts, [REDACTED] related "unusually favorable commentary" following the Agency's presentation during the Brookings Conference for Business Executives on Federal Government Operations on 2 May.

On separate occasions, each pointed out their high regard for the courtesy and candor demonstrated by their Agency hosts, also stating that they came away with a new appreciation for the role the Agency plays in governmental affairs and an increased knowledge of the problems which confront the Agency. Both men expressed the opinion the Agency visit was one of the high spots of the Brookings program and one which should not only be continued but perhaps expanded.

### 3. Training Topics

A draft proposal for a Chinese PAI course has been completed and is undergoing Language School "Murder Board" scrutiny before being submitted to DDS&T/ORD for consideration. A proposal for a Russian PAI course is also in preparation. . . . For the next Senior Executive Course at the Department of Defense Computer Institute, beginning 16 June, [REDACTED] (OF) has been nominated. When [REDACTED] (OP) was withdrawn, the second space was offered to the O/DDI. . . .

Approximately 40 ONE officers and consultants will attend a conference [REDACTED] from 16-19 June. . . . Two Reading Improvement courses, completed this week, have been termed more successful than the other two courses held in the same "class-room" (balcony of South Cafeteria). One reason for better results is attributed to use of a microphone and amplifier to help the instructor overcome competition from normal cafeteria activities.
